

NAB has no right to do this, I pay for this service and have every right to get what xm offers me. I pay for this service for commercial free music before the traffic and news. what give them the right to stop it. are they losing money because xm offer these services. god forbid you lose money or don't get your way they start crying like a spoiled brat. I enjoy not having to wait 10 minutes to wait for traffic and weather it is very convenient. Only a couple million are subscribers to xm. there are 250 million people in the world. The NAB are spoiled brats and just want their way or the highway and do anything they can to stop. kind of like the nazis. I consider NAB as nazis and Nazis are not allowed to be in power. Lets have competition maybe the NAZIS can't think of anything creative so they are jealous. I listen to xm radio because NAZIS play the same set of songs over and over again everyday. don't forget the top 20 stations where you hear one song and repeats after you just heard it the first time. I think we should get rid of NAB for their repetitious acts like NAZIS every major city has the same type of crappy radio stations. I sometimes see the same cop shows on fox two episodes of the same thing 3 days in a row. and then it plays next week. Down with NAZIS and NAB
Thank you

Ross Levy

Don't mess with XM radio
